Sorry for the delay,

Thought I had sent.

Regards,

Bill Ogle

Subject: RE: EPA Request for Access

Mr. Ogle – I hope you received my previous email and have just been busy. We delayed our

sampling event until early June due to the weather and the spring runoff conditions and our desire to hit the peak runoff. We would still like to receive your permission for access. I've attached the access agreement again for your convenience - if you could sign the 2nd page and return it within the next couple of weeks that would be great. If you have any questions please feel free to contact me. Thank you.

Subject: EPA Request for Access

Mr. Ogle – This email is to follow-up with our conversation this afternoon concerning EPA's request for access thru your property to collect water quality samples in the Animas River near Silverton Colorado. EPA appreciates your cooperation in providing access for this important work. Attached is an access agreement for you to sign and return to EPA. If it is convenient for you, you may scan the signed access agreement and email it back to me. If you have any questions, please feel free to contact me. My phone #s are listed below my name below.

Thank you for your willingness to provide EPA access.
